A vintage biplane, likely a de Havilland Tiger Moth, is shown in flight against a cloudy sky. The aircraft is painted in a dark brown or olive green color with white markings. The number '50' is visible on the side of the fuselage. The tail section features a distinctive red, white, and blue striped pattern. The plane is a high-wing biplane with a single radial engine mounted in the front. Two crew members are visible in the open cockpits.

- Why 4 weeks for ebay packet from UK with Air Priority??
- Couriers such as DHL have integrated systems and carriers
 - (but not very optimized..)
- Everything else (i.e. Royal Mail) seems to be a mess!

Air cargo reality...

What to do?

- Create a next-gen logistics simulation
 - Real world data
 - Current and next gen automation
 - Adaptation to local profile
 - Visualization
 - Optimization
 - AI!

Join my little \$2B project in Miami!

A woman in a white swimsuit is walking away from the camera on a sandy beach. The sun is low on the horizon, creating a warm, golden glow. The sky is filled with large, white clouds. In the background, there are palm trees on the right and a city skyline with several tall buildings on the left. Other people are visible in the distance on the beach.

Enjoy free time at the beach! ^(*)

^{*)} Several requirements must be met...
