F-Secure Total includes everything you need

F-Secure Total works across different operating systems and devices. Protect your Windows PCs, Macs, and Android or iOS smartphones and tablets with one brilliantly simple app.

Security

Keep your devices safe from viruses and ransomware and protect your money online.

⊘ Antivirus   ⊘ Browsing protection   ⊘ Parental controls

Privacy

Encrypt your connection, stop hackers and trackers, and browse safely on public Wi-Fi networks.

⊘ Privacy protection   ⊘ Wi-Fi protection   ⊘ Virtual location

Identity protection

Store your passwords in a secure vault and monitor your personal information online.

⊘ Online identity monitoring   ⊘ Identity theft help   ⊘ Password manager

Protecting 30M people globally

Absolute necessity of better online scam protection

Online shopping scams increasingly lead to $100s of millions in losses.

Our goal is to develop F-Secure's protection tools and technologies to combat this increasing threat.
